

Whos the Best in Customer Service?

It used to be said to do one thing and do it well. Today, we have to do a multitude of things well—all at one time. This book is to help make one part of the multitude easier, which will, in turn, free up your time and brain power for the more difficult tasks. *Whos the Best in Customer Service?* is written for two types of people; those who are employed to give customer service and those who manage customer service teams. If you are looking for a starting point to learning customer service yourself or to assist you in training your staff, this should be your first resource. *Whos the Best in Customer Service?* is a basic, direct, Point A to Point B guide to help you on your journey to becoming a customer service professional. It details a step-by-step sequence of occurrences that should happen in an encounter with a customer, including what should and should not be said, what needs to happen and ultimately, what the outcome should be. There is also a special section for managers entitled TOP SECRET. This section will help you bring your team to the next level even if they are already doing well with customer service.
