

This book has arisen from the authors successful course at Liverpool University. The text covers all the essentials in a style that is detailed and expertly written by one of the foremost researchers and teachers working in the field. Ideal for either course use or independent study, the volume guides students through the key concepts that will enable them to move on to more detailed study or research within the field.

The Ultimate Prehistoric Sticker Book (Ultimate Stickers), Functions Unit Guide (School Mathematics Project 16-19), The Riverscape and the River, Myths & Legends (World Book Myths & Legends Series.), Proceedings of the Symposium on Congestion Theory: Number 2, Renewable Energy (Global Issues - Macmillan Library), Open the Door, Amateur Rodmaking, Old Ironsides: Americans Build a Fighting Ship, Too Quiet For These Old Bones,
