

Immortal Animals - Amazing Animals (Amazing Animal Series Book 4)

Do you know what being immortal means? It means you can live forever. For as long as humans have recorded stories, there has always been stories about people who never die. But, this is just a fantasy, right? Did you know that there are animals that do not age, and if conditions were just right, they could live forever? Now, scientists study these animals to help cure humans and help us live longer. Do you think one day we might live forever too? In this book, you will discover what the phrase biological immortality means, how these special animals are different. Lobsters - Why don't they age? Giant Tortoise - How old is the oldest one we know? Flatworms - You won't believe what you can do to these little creatures! Glass Sponge - The longest living creatures on earth, guess how old they are. Immortal Jellyfish - Find out why this creature is called the Benjamin Button of animals. Hydra - Once an animal in myths and legends, find out about the REAL hydras. Water Bears - Not the cute and cuddly kind, but find out what they can survive. You will be amazed. Immortal Animals also introduced you to other animals that live a very, very long time, and talks about humans fascination with living forever. You will be amazed at what you'll learn from these animals. This book is perfect for solo reading for ages 8-11. Younger children will enjoy the over 15 full color photos, and reading along with you.
