

## Baby Jules

Baby Jules is a heart-wrenching story about two generations of women, who fight for the survival of their dysfunctional family. The author leads us through a fractured storybook marriage, the death of a beloved daughter, and a grieving mothers challenge. The reader will experience a bittersweet drama about the emotional emptiness that only a parent can feel through the loss of their child. Three dynamic women discover the power of forgiveness along with love and success. This story deals with a familys survival mechanisms following a childs death, which gives them the intestinal fortitude and sanity to continue their lives. In the end, they triumph and realize the existence of a Higher Power.
