

Tony Pail

Tony Pail is the story of a young girl, Rebecca, who is doing her best to deal with the aftereffects of leukemia treatments. During periods of remission she is optimistic and tries to lead a normal life. When she and her family learn that she will not recover, her world becomes focused on her family and her love of horses. One fateful day at the riding stables, she encounters a mysterious talking horse named Tony Pail. She develops a bond of communication and friendship, and joy reappears in her life. Her feelings of remorse fade, her soul begins to heal, and for the first time she begins to consider the meaning of life and death. Rebecca loves her new friend Tony but is hesitant to talk about him with her family and friends. Will they think Tony is nothing more than just a figment of her imagination providing an escape from her pain and isolation? Rebecca heeds Tony's advice to trust her feelings, believe and follow her heart and their friendship grows stronger and more vibrant. Is Tony real? It is up to the reader to decide. Richly layered, inspiring, and imaginative, Tony Pail expresses its own brand of courage, hope, belief, and the power of friendship. The book is a reminder for all of us to open our hearts to new experiences and to trust our feelings. Whether or not you believe in talking horses, readers are invited to join Rebecca on her journey and be inspired. Tony Pail is available at local bookstores and libraries today.
