

Mathematics Teaching: Putting Research into Practice at All Levels (The Amte Monograph Series)

(Originally published in 2010) The seventh monograph of Amte highlights examples of important scholarship of and for the mathematics teacher education community. This monograph, like others produced by Amte, serves as a forum for mathematics teacher educators to exchange ideas, experiences, resources, and detailed accounts of work to improve teacher preparation. Chapters in this monograph take up a variety of issues such as using online social networking in the preparation of teachers, examining the impact of textbook specific professional development, and offering a mathematics-specific reading in the content area course.
