

## Stars and Planets Handbook: Whats out there?

This bright, bold handbook will answer kids most popular questions on just how our solar system works. With fake tabs on the cover and color co-ordinated sections, this is space made simple. What is a star? What are planets made of? Just how big is the universe - and how tiny are we? The amazing answers to these questions and more will be uncovered in the Stars and Planets Handbook, the perfect guide for star-spotters everywhere.
