

## Raising Your Kids To Be Sexually Pure

Seventy percent of American youths become sexually active before their eighteenth birthday. Almost thirty years ago, Richard and Renee Durfield had an idea to help their kids stand strong in the face of sexual peer pressure: to have a key talk with each one, explaining the sacredness of sexual purity, and to present him or her with a ring that symbolized their commitment to remain pure until marriage. Since that time, the key talk concept has encouraged millions of teens to commit to virginity pledges. Here are the how-tos for the key talk--how to prepare for it, how to hold it successfully, and how to support teens as they resolve to live with integrity. This is proven advice for today's families who want to support their teens in living godly lives.
