

The Star Pupil: A Dots Quest to Find His Place in the World

Written with rhyme, fantasy and humor, The Star Pupil is a tale of a dots quest to find his special calling. After excelling in school, he heeds his parents advice to follow his heart and to always be himself. He travels the road and opens four doors (metaphorically searching the four corners of the earth) that lead to the CITY, ZOO, LIBRARY, AND COUNTRY. Each place offers exciting opportunities such as literary work (punctuation), computers (dot-com), music (note on a staff), etc. At the end of his search he realizes that the answer had been with him right from the start...hiding behind the DOOR TO HIS HEART.
