

# Whats the Worst That Could Happen?: A Rational Response to the Climate Change Debate

7.2 million YouTube viewers cant be wrong: A provocative new way to look at the global warming debate. Based on a series of viral videos that have garnered more than 7.2 million views, this visually appealing book gives readers-be they global warming activists, soccer moms, or NASCAR dads-a way to decide on the best course of action, by asking them to consider, Whats the worst that could happen? And for those who decide that action is needed, Craven provides a solution that is not only powerful but also happens to be stunningly easy. Not just another change your light bulb book, this intriguing and provocative guide is the first to help readers make sense-for themselves-of the contradictory statements about global climate change. The globe is warming! or The globe is not warming. Were the ones doing it! or Its a natural cycle. Its gonna be a catastrophe! or Itll be harmless. This is the biggest threat to humankind! or This is the biggest hoax in history. Watch a Video
